

Internship opportunities - Padova

Who we are

Teachersrise organises teacher training courses and projects for teachers and schools from all over Europe. The Erasmus+ programme fully funds the costs of participation in our courses and projects for schools of all types and levels. We help those schools to get this funding through our dedicated Erasmus+ support service.

Course participants typically move for one week from their country to one of our locations to attend our courses and learn new teaching methodologies and skills. Along with the training, we also offer socio-cultural activities and accommodation for participants. Whether schools got funding for teacher training courses through our support service or independently, we actively compete with other Erasmus+ course providers in a competitive market to attract participants to our teacher training courses. We strive to resolve the practical aspects of their booking process, and to meet their needs and preferences for topics, dates, and other logistical factors.

Instead, projects involve organisations from different countries cooperating on activities related to education and training. These activities aim to address specific topics, exchange experiences, and promote innovation and knowledge sharing among the partners. Our support service facilitates the creation of these partnerships by connecting organisations with similar interests and providing professional project application drafting. During implementation of these project activities, we are committed partners, focused on achieving great project results and fostering strong relationships for international cooperation.

Minimum internship period: 3 months. Ideally, 6 months.

Overview: We maintain an ongoing availability of internship positions within our company. These positions offer an opportunity for full-time employment upon successful completion of the internship, based on performance and fit with the company culture.
